Attachments: Approved Plantings List.pdf; 26-1017 Planting Plan.pdf

Hello,

Permit 26-1017 has been reviewed. A Planting Plan will need to be submitted, and the required mitigation is (2) native ¾ inch caliper tree. Attached is a list of native plants, and there is a section for trees that you can choose from. I have attached a pdf titled 26-1017 Planting Plan; this can be used as a template for the planting plan. The trees can be planted anywhere on the property. The easiest way to create a Planting Plan with the template, is to mark the areas you would like to plant the trees with an (X), and to label each as a native ¾ inch caliper tree. When the plan has been created, please submit it to bpservice@stmaryscountymd.gov or to front counter of Land Use and Growth Management.
